Section 4 First Aid Measures	
INGESTION: Never give anything by mouth to unconscious person. Rinse mouth and get conscious person drink a glass of milk or water. Get medical advice. INHALATION: Remove to fresh air. Get medical attention if necessary. EYE CONTACT: Wash immediately with plenty of water, and continue washing for at least 15min., occasionally lifting upper and lower eyelids. Seek medical attention if irritation develops. SKIN CONTACT: Remove contaminated clothing. Flush thoroughly with mild soap and water.	

Section 5 Fire Fighting Measures	
May be combustible at high temperatures. High concentration of dust in air in the presence of ignition source is a potential dust explosion hazard. Product of combustion are carbon oxides. Extinguishing Media: Use any media suitable for extinguishing supporting fire. Flash point: 93.3°C Autoignition temperature: N/A Explosion limits: Lower: N/A Upper: N/A

Recover for use if not contaminated. Sweep or vacuum up and place in a suitable container for proper disposal. Wash spill area with soap and water.	

Section 7 Handling and Storage	
Read label on container before using. Do not wear contact lenses when working with chemicals. Keep container tightly closed. For laboratory use only. Not for drug, food or household use. Use only under adult supervision. Handling: Use with adequate ventilation. Do not inhale dust. Wash hands thoroughly after handling. Storage: Store in closed container in a dry area. Keep away from flames and excessive heat.	

Section 8 Exposure Controls/ Personal Protection	
Engineering controls: Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limits outlined in section 3. Wear chemical splash goggles, chemical-resistant gloves, and chemical resistant apron. Respiratory protection: Non should be needed if normal laboratory handling at room temperature. Use NIOSH approved respiratory protection under dusty conditions.
